3.2 HEALTH AND SAFETY POLICY

Occupational Health and Safety is a fundamental part of all activities and a core responsibility for both management and every employee in the company.

The company recognizes its responsibilities and obligations towards ensuring health and safety at work, monitors and applies European and national occupational health and safety legislation and at the same time conducts ongoing research into risk reduction practices in the work environment.

Our Health and Safety Policy aims at:

- Protection of the health and safety of employees of the company and third parties, eg. suppliers.
- Compliance with applicable legislation and other health and safety requirements at Work
- Systematic recognition of occupational risks and measures to prevent or reduce risks in the working environment
- Perform the job at the desired quality level with zero accidents, injuries or damage to equipment and facilities.
- To inform, educate and raise awareness of the Company's employees on Health and Safety at Work. Clear reference and understanding of all employees' responsibilities on safety issues.
- Provide financial resources for the continuous development of new technologies and forms of work risk control, aiming to reduce the work risks.
- Provide all necessary instruments (equipment, printed matter, training, etc.) and procedures for establishing, reviewing and achieving the objectives for the OSH

With the development of the health and safety management system in accordance to OHSAS18001:2007 / ELOT 1801:2008, the company recognizes its responsibilities towards the human being and is committed to the faithful implementation of the required regulations of the system. Company's health and safety policy is a commitment of the company's management towards:

- The prevention of occupational accidents and illnesses and the constant improvement on H&S performance
- The compliance with the applicable European and National legislation and other requirements on occupational health and safety issues.

Company's occupational health and safety policy is reviewed in the Annual Review by Management.

This company policy is notified to each employee of the company, implemented and supported by each employee of the company and is available to any interested party.
